- 4.2.** Crimes occurred by geographical area, by month of occurrence, September 2018 to August 2019
- 4.3.** Crimes occurred by place of occurrence and type of crime, September 2018 to August 2019
- 4.4.** Distribution of expenses due to insecurity by type of expense (value in Eastern Caribbean Dollars), September 2018 to August 2019.
- 4.5.** Distribution of theft of vehicle parts, by type of part, September 2018 to August 2019
- 4.6.** Distribution of theft of objects from inside the vehicle, by type of stolen object, September 2018 to August 2019
- 4.7.** Distribution of robberies, by type of stolen object, September 2018 to August 2019
- 4.8.** Distribution of thefts, by type of stolen object, September 2018 to August 2019
- 4.9.** Distribution of occurred bank frauds, by type, September 2018 to August 2019
- 4.10.** Distribution of occurred cybercrimes, by type, September 2018 to August 2019
- 4.11.** Cybercrimes occurred by type and device used, September 2018 to August 2019
- 4.12.** Cybercrimes occurred, by type of negative effects caused to the victim, September 2018 to August 2019
- 4.13.** Cybercrimes occurred, by type, by health effects caused to the victim, September 2018 to August 2019
- 4.14.** Distribution of occurred bribes, by type of authority, September 2018 to August 2019
- 4.15.** Distribution of assaults where the victim suffered any type of physical injury by geographic area, by type of injury, September 2018 to August 2019
- 4.16.** Threats and extortions, by means of occurrence, September 2018 to August 2019
- 4.17.** Crimes where the victim was present, by the condition of vulnerability of the victim of being under the influence of alcohol or any other substances, September 2018 to August 2019

V. Sexual harassment

- 5.1.** Population aged 18 and over by geographic area, by condition of victimization of at least one situation of sexual harassment, September 2018 to August 2019
- 5.2.** Population aged 18 and over victim of sexual harassment by type of situation, by sex, September 2018 to August 2019
- 5.3.** Population aged 18 and over victim of sexual harassment by frequency of occurrence, by type of situation, September 2018 to August 2019
- 5.4.** Percentage of population aged 18 and over victim of sexual harassment, by the situations suffered in the most recent experience and sex, September 2018 to August 2019
- 5.5.** Victims of sexual harassment by geographic area, by place of occurrence of the most recent experience, September 2018 to August 2019
- 5.6.** Victims of sexual harassment by geographic area, by location of occurrence of the most recent experience, September 2018 to August 2019
- 5.7.** Population aged 18 and over victim of sexual harassment by geographic area, by sex of the perpetrator in the most recent experience, September 2018 to August 2019
- 5.8.** Population age 18 and over victim of at least one situation of sexual harassment that knew their perpetrator, by relationship with the perpetrator in the most recent experience, September 2018 to August 2019
- 5.9.** Population age 18 and over victim of at least one situation of sexual harassment by geographic area, by reporting status to any competent authority of the most recent experience, September 2018 to August 2019
- 5.10.** Population age 18 and over victim of at least one situation of sexual harassment that did not report their most recent victimization to any competent authority, by reason for not reporting in the most recent experience, September 2018 to August 2019
- 5.11.** Most recent incidents of sexual harassment reported to any competent authority, by type of authority to which it was reported to, September 2018 to August 2019

VI. Perception of public safety

- 6.1.** Population aged 18 and over by geographic area and public or private space, by perception of safety in them and sex, September 2018 to December 2019
-  **6.2.** Percentage of population aged 18 and over by geographic area, by perception of safety walking alone in their neighborhood, September 2018 to December 2019
-  **6.3.** Female population aged 18 and over by geographic area, by perception of safety walking alone in their neighborhood, September 2018 to December 2019
-  **6.4.** Male population aged 18 and over by geographic area, by perception of safety walking alone in their neighborhood, September 2018 to December 2019
-  **6.5.** Intersex population aged 18 and over by geographic area, by perception of safety walking alone in their neighborhood, September 2018 to December 2019
- 6.6.** Percentage of population aged 18 and over by geographic area, by perception of safety walking alone in their neighborhood at night, September 2018 to December 2019
- 6.7.** Female population aged 18 and over by geographic area, by perception of safety walking alone in their neighborhood at night, September 2018 to December 2019
- 6.8.** Male population aged 18 and over by geographic area, by perception of safety walking alone in their neighborhood at night, September 2018 to December 2019
- 6.9.** Intersex population aged 18 and over by geographic area, by perception of safety walking alone in their neighborhood at night, September 2018 to December 2019
- 6.10.** Population aged 18 and over by geographic area and types of crime, by the perception of the possibility of becoming a victim of any of them, September 2018 to December 2019
- 6.11.** Population aged 18 and over, by geographic area and community problems, by condition of occurrence, September 2018 to December 2019
- 6.12.** Population aged 18 and over by geographic area and daily activities, by the condition of having stopped doing them because of the security context, September 2018 to August 2019
- 6.13.** Female population aged 18 and over by geographic area and daily activities, by the condition of having stopped doing them because of the security context, September 2018 to August 2019
- 6.14.** Male population aged 18 and over by geographic area and daily activities, by the condition of having stopped doing them because of the security context, September 2018 to August 2019
- 6.15.** Households by geographic area and security measures, by the condition of having adopted any measure, September 2018 to August 2019
- 6.16.** Population aged 18 and over by geographic area, by opinion if crime level has changed compared to last year (2018-2019), September 2018 to December 2019

VII. Authorities' performance
