

Giulia Mugellini

Senior researcher at the University of St. Gallen (Switzerland) and at Killias Research&Consulting (Switzerland). Her professional experience focuses on crime and criminal justice statistics and on crime and corruption victimization surveys on individuals and businesses.

She worked on the design and development of the first Italian business victimization survey (2008) for the Italian Ministry of the Interior, and on the first EU survey to assess the level and impact of crimes against business (2009-2012) for the European Commission. She developed a scientific paper on the measurement of crime against the private sector in Latin America (2012-2013) for the Centre of Excellence UNODC-INEGI, and she cooperated in the development of a victimization survey on crime and corruption in the Western Balkans (2012) for the United Nations Office on Drugs and Crime (UNODC). She also carried out the analysis of the results of the first Swiss Business Crime Survey (2012) at the University of Zurich. She is currently working for the University of St. Gallen on a project aimed at assessing the risks of corruption for Swiss firms in international business transactions.

She was a senior researcher at the Institute of Criminology of the University of Zurich (2011-2013), an external consultant for the United Nations Office on Drugs and Crime (2011-2013), Adjunct Professor of Crime Statistics at the Catholic University of Milan (2009-2012), and a project manager and researcher at Transcrime (2006-2011).

She has authored several publications in the field and recently edited a book on the measurement and analysis of crime against the private sector (INEGI 2013).

She holds a PhD in Criminology and a master's degree in Applied Social Sciences at the Catholic University of Milan (Italy).
